EDUCATION

Comprehensive University 20XX.XX - 20XX.XX

B.A. in Digital Economy

- Completed core coursework in data analytics, database principles, management statistics, business intelligence and information systems.
- Participated in course-based practice in data analytics and digital management, developing foundational data-processing and business-analysis skills.

Overseas Short-term Academic Programme 20XX.XX

- Completed a business-data-analysis course, using case data for statistical analysis, visualisation and a group research report.

HONOURS & AWARDS

- Member, Student Innovation Practice Project
- Study Scholarship

PROJECT EXPERIENCE

Retail Product Demand Analysis Project 20XX.XX - 20XX.XX

Data Analytics · Python · Visualisation

- Cleaned, classified and explored simulated retail transaction data to examine demand changes across product categories and time periods.
- Built baseline forecasting models and compared performance; produced a visual report to support inventory-planning reference.

Urban Shared Mobility Data Analysis 20XX.XX - 20XX.XX

Data Processing · SQL · Business Analysis

- Prepared anonymised shared-mobility data and used SQL for data queries, aggregation and metric calculations.
- Analysed usage patterns by time, area and frequency, and designed a foundational operations-metrics framework.

Campus Event Management System 20XX.XX - 20XX.XX

Database · Web System · Information Management

- Designed a lightweight system for event publishing, registration and information management, including database structure and core process design.
- Implemented data entry, query and statistical functions, then refined selected interaction flows based on testing results.

PRACTICAL EXPERIENCE

Internet Services Company 20XX.XX - 20XX.XX

Data Operations Intern

- Supported platform-operations data preparation, basic metric reporting and periodic data aggregation.
- Used spreadsheets and data-analysis tools to check data quality and help prepare operations-analysis materials.
- Summarised periodic findings from business-metric changes to support day-to-day team operations.

Consumer Goods Company 20XX.XX - 20XX.XX

Business Analysis Intern

- Prepared product, sales and channel data and conducted basic comparative analysis across business dimensions.
- Maintained internal data reports and business documentation to support routine team analysis.
